Office of the Secretary

Michael Powell:

I am writing in regard to Docket 02-278. I live in a state that does not allow companies to call former customers after they cancel services (within 18 months or ever) if they are signed up on the do-not-call list. Additionally, people on my state's do-not-call list are not subject to telemarketing calls from any affiliates of the businesses they have relationships with.

I fully support these additional protections in my state and oppose any effort to weaken them. Several states have chosen to go above and beyond the federal law when it comes to telemarketing and should be allowed enforce their enhanced laws. Please do not weaken any state's telemarketing do-not-call laws!

Thank you,
